COMMAND YOUR WORKSPACE

TEOS MANAGE

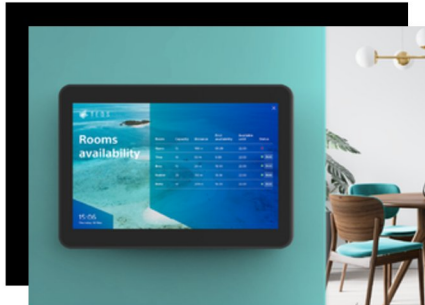

Take full control of devices, signage, content, and building controls. Automate scenarios with sensors and external data sources for a truly intelligent workplace. Manage multiple locations from a single interface. Whether you have 2 offices or 200, TEOS scales with your organization.

STREAMLINE BOOKINGS

TEOS BOOK

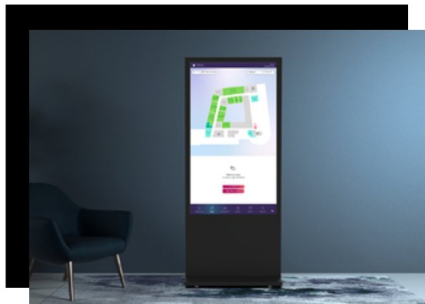

Take the friction out of finding and booking workspaces. TEOS Book lets employees search, reserve, and manage meeting rooms and hot desks from anywhere: via the web portal, mobile app, or room panel, with everything from equipment requests to no-show detection handled automatically.

SIMPLIFY VISITOR MANAGEMENT

TEOS RECEPTION

Automate and easily manage visitor and employee check-ins for a streamlined and secure in-office environment. Display interactive floor maps on digital signage screens for easy wayfinding. Visitors and employees can locate rooms, desks, and amenities at a glance.

MASTER YOUR MEETINGS

TEOS MEETING DISPLAY

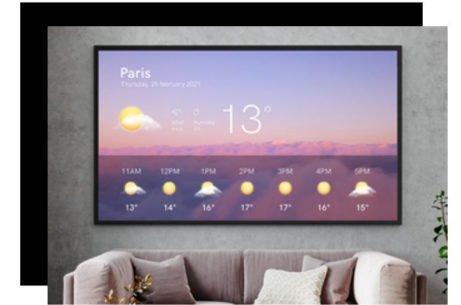

Turn every meeting room screen into a smart, working asset. TEOS Meeting Display replaces idle, blank displays with fully customizable content like room agendas, sensor data, countdown notifications, and screensavers, giving employees the information they need, right where they need it.

COMMUNICATE WITH IMPACT

TEOS SIGNAGE

Transform your workplace screens into powerful communication tools. TEOS Signage lets you create vibrant, touch-interactive digital displays in minutes and distribute them instantly across your network. Blend text, graphics, video, and live web content to inform, engage, and inspire.
